

Formatting Tips

Emphasize your name by using boldface and larger font.

Use 12-14 point boldface font for all section headings and 10-12 point regular font for body text.

Set your margins at 1/2"-1".

Use "Line Spacing Options" menu to set line spacing to single. Ensure that spacing before and after paragraphs is set to zero.

Single space the body text. Double space between sections.

Indent text under section headings.

All body text should align to one point of indent. **Do not** create multiple points of indent as you would in an outline.

Align non-substantive info such as dates, cities, and states on the right margin.

Use **Stop Tabs** to create a sharp right hand margin.

Content Tips

Use a professional email address.

Your email address should not be underlined nor hyperlinked (remove by right-clicking and selecting "remove hyperlink").

Use a qualifications, skills or summary section to highlight 4-6 strengths that are **relevant** and **important** to the employer/organization.

Use action verbs to describe your experience. Do not list every task you performed; focus on those tasks/skills that relate to your career.

Remember even employment unrelated to your career can demonstrate the skills you've gained.

Create and list sections in order of importance to the employer (Internship, Related, Research, etc.) and present information of interest to them – be detailed but brief.

Do not put 'References Available Upon Request' *nor* a list with names and contact information. Save this for a separate 'References' page.
